# game.com

## INTERNET

Link your game.com system to text-based Internet/email services. Contains communications cart and cable (other equipment required; please see back for details).

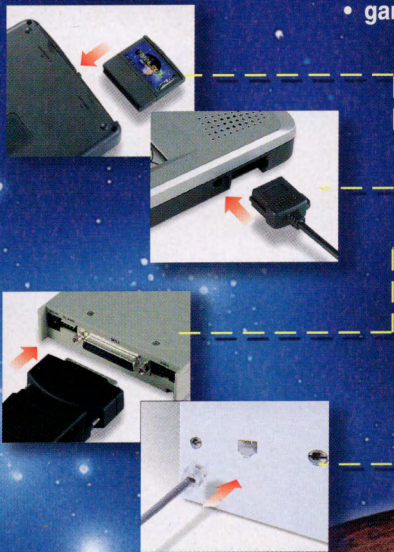

# game.com™

MODEL 71-529

## game.com INTERNET

Link your game.com system to text-based Internet and email services. Contains communications cart and cable. Also required (not included):

- 14.4 (or faster) modem
- Subscription to an appropriate Internet Service Provider (subscription information included)
- game.com system

### Here's how it works:

1. Insert the Internet cartridge into slot #1 on your game.com.
2. Plug one end of the cable into the communications port.
3. Plug the other end of the cable into an external 14.4 (or faster) modem (not included).
4. Plug the modem into your telephone line.
5. Turn on game.com.
6. Select CARTRIDGE.
7. You can join Delphi, the recommended Service Provider, by touching JOIN DELPHI on the screen (subscription required; see details inside).
8. Alternatively, you can connect to any other Service Provider you subscribe to which supports text-based connections.
9. Use the keyboard on the screen to surf the Web or to send/receive email to/from ANY email address in the world.
10. It's easy to hook up; easy to use!
